

Dmytro Rudnytskykh

Front-end, JS Developer

Date of birth: November 26 1994 (20 years)
Country: Ukraine
City: Kyiv
Mobile: +38 (063) 65 36 215
Skype: dmytro.rudnitskih
E-mail: rudnitskih@gmail.com
LinkedIn: Dmytro Rudnytskykh

Summary

I am looking for a position of a JS developer with a focus on the creation of high SPA using modern frameworks on both the client and the server. The reason I chose front-end is that I like coding and creating user-friendly interface. I have more than one year of commercial experience: creating and supporting projects with 100 and more pages, advanced experience adaptive markup. I value my time so using builders/precompilers and other cool stuff.

Projects

Union Standard Bank

Transfer markup to WordPress using PHP and Jade2Php, integration with bank`s CRM. Supporting, markup and scripting new functional

Astro.club

Markuping, scripting, fixing bugs, supporting

Fastimport

Markuping, scripting, programming of back-end using WordPress, PHP, Jade2Php and integration with ArmoCRM

OS:	Linux, MacOS
Data Formates:	JSON, YAML
HTML5 API:	AJAX, Canvas, File System, Media, Web Storage
Images:	SVG, Font icons, Sprites, Adobe Photoshop, Adobe Illustrator
CMS:	WordPress
Workflow:	Git, Bower, Gulp
Tasks Managers:	Jira, Asana, Toggl

Familiarity

EcmaScript 6, NodeJS, HTTP/TCP, SVG Animations, MeteorJS, Apache, Dokku, Heroku, MongoDB, MySQL, XML, Assembler, C#

Soft skills

- **Analytical Thinking** — at school won many regional mathematics Olympiads, the medalist of National Physics Olympiad 2010.
 - **Cooperation** — enjoy working in a team, I really believe, that two heads are better, than one. Have 5 years experience team player like sportsman.
 - **Mathematics** — knowledge of algebra, geometry, higher math, and their applications.
 - **Initiative** — at school I created an NGO organization.
 - **Leadership** — if I can lead a situation - I will lead it. Now I am a head of my University`s group. Couple of times a year I organize a hike in the mountains and lead the group.
 - **Creativity** — like photo and videomaking, my youtube chanel is goo.gl/UzFEjh.
-

Work Experience

Years:	2014 - Now	My responsibilities include full front-end work: markuping, scripting, optimization, supporting, manual testing. Sometimes I create back-end using PHP, Wordpress and Jade2Php plugin. For work we are using our builder Verstat. Main stack is Jade/Stylus/Coffeescript and BEM.
Company:	Se7ensky art studio	
Position:	Frontend, JS developer	
Years:	2013 - 2014	I was interested in Web development during all my study in KPI, markup simple pages, coding lab works using JS, write course project using CMS.
Company:	Freelance	
Position:	Markup coder	

Languages

English:	intermediate (Have participated at program Work&Travel USA. Live in Virginia state during 3 mounth)
Ukrainian:	advanced
Russian:	native language

Education

Years:	2012-2016
Degree:	Bachelor
Major:	"System Engineering", Faculty of Informatics and Computer Science (FIOT)
Alma mater:	Kyiv Polytechnic Institute
